May 13, 2020—United Way of Trumbull County recently surveyed our community to determine the most pressing needs that have emerged during the COVID-19 pandemic and the economic strain it has created. The need for diapers was one of the most common answers we received.

Women United Trumbull County moved into action and created a diaper fund and Joeann Coleborn and the employees of Litco International in Vienna went over and above with an employee diaper drive. Thanks to their generosity, hundreds of diapers and dollars were donated. United Way of Trumbull County wants to thank Joeann, the employees of Litco International, and everyone else who donated for LIVING UNITED!
